

# ACTION PLAN

## IMPLEMENTING CESSATION STRATEGIES IN THE RADIOLOGY FACILITY

Instructions:

- **Strategies we think are feasible in our radiology facility** - Using the information from your summary, which strategies do you plan to implement?
- **How?** – How do you plan to implement these?
- **Who?** – Who is responsible for implementation and sustaining the activity? Ex. –if you are planning to do “x”, who will ensure the strategy continues to be implemented over time.
- **When?** – When do you plan to start the implementation? When do you expect it to be fully implemented?
- **Notes** – This is great place to indicate the status of your implementation, provide regular updates, and where things are in progress.
- **Recommendation** – Build in a regular time to check-in on the progress of your implementation work (CT staff meeting, leadership meeting, etc)

Strategies we think are feasible in our radiology facility	HOW?	WHO IS RESPONSIBLE?	BY WHEN?	Status
<p>Ex. – “Actively refer patients to our internal tobacco program”</p>	<p>-Connect with the cessation program to understand the referral process to the cessation program.</p> <p>-Design a process to integrate into the screening facility check-in process.</p> <p>-Provide a script to check-in staff in order to inform patients that all current smokers are referred to the cessation program.</p>	<p>Facility manager; Check-in staff</p>	<p>_/_/_</p>	<p>We trained check-in staff during the most recent staff meeting. Referrals will begin on this date.</p>
